Digital pressure gauge **Model CPG1200**

WIKA data sheet CT 10.20

Applications

- Hydrostatic pressure test
- Burst tests
- Leakage measurement
- Setting of switch points on pressure switches
- Analysis of process pressures

Special features

- Setting and checking operating pressures is easier than ever
- Simple data transmission via USB and Bluetooth®
- For mobile use and stationary continuous operation

Digital pressure gauge, model CPG1200

Description

The battery-operated and very sturdily built digital pressure gauge model CPG1200 has been designed specifically for use in mobile applications. Ranges up to -1 ... 1,000 bar [-14.5 ... 15,000 psi] (gauge pressure) feature an accuracy down to 0.25 % FS.

Checking and setting operating pressures is easier than ever

The instrument is available with the most common process connections and simplifies the workflow thanks to the data logger with up to 1 million data points and min./max. function. In practice, the quick and simple testing also minimises the risk of production downtimes due to critical pressure values in the process - thanks to the intrinsically safe Ex version also in sensitive areas of the oil and gas industry.

Simple data transmission – via USB and Bluetooth®

The model CPG1200 is equipped with a Micro-USB interface for simple and interference-resistant data transmission and can optionally be expanded to include Bluetooth® for wireless communication.

For mobile use and stationary continuous operation

To ensure that critical pressure changes are detected at an early stage during transports, the CPG1200 continuously records the values and sends an alarm if necessary. Temporary monitoring is no problem thanks to data logger and battery operation.

An energy-saving mode and variable measuring rates allow for operating times of up to 4,000 hours without changing the battery. The battery status display shows when a change is necessary. Thanks to power supply via USB interface, the CPG1200 is also a reliable solution for stationary operation.

Further details on: Process connection	
Pressure port diameter / restrictor	3.5 mm [0.138 in]
Other versions	 Oil- and grease-free ¹⁾ For oxygen, oil- and grease-free ²⁾
Material	
Wetted parts 1)	Stainless steel 316L
Internal pressure transmission medium	WithoutSynthetic oil (for measuring ranges ≤ 6 bar [≤ 70 psi])

- Specifications in accordance with technical information IN 00.41
 3.1 inspection certificate per DIN EN 10204 (listing of the individual measured values)
- → For drawings of process connections, see page 8

Output signal	
Micro-USB 2.0 type B	
Max. input voltage	DC 5 V
Max. input current	100 mA
Max. power	500 mW

Radio standard		
Bluetooth®		
Version	5.2 Low Energy	
Frequency range	2.4 2.5 GHz	
Range in free field	5 m [16.4 ft]	

Voltage supply and performance data	
Battery 3 x 1.5 V AA alkaline batteries 1)	
Battery life Typically > 4,000 h (without backlighting and with Bluetooth® not active)	

¹⁾ For hazardous areas, only approved models are permitted. These are listed separately in the operating instructions and in the additional information.

Operating conditions		
Place of use For indoor and outdoor use		
Altitude 2.000 m [6.562 ft]		
Medium temperature range	-20 +50 °C [-4 +122 °F]	
Operating temperature -10 +50 °C [14 122 °F]		
Storage temperature range -20 +70 °C [-4 +158 °F] -18 +55 °C [0 122 °F] for ATEX due to batteries		
Relative humidity, condensation < 84 % r. h. (non-condensing)		
Permissible media All liquids and gases which are compatible with 316 stainless steel		
Permissible pollution degree 2 per EN 61010-1

"myWIKA device" app

Via the app "myWIKA device" and the Bluetooth® connection, the CPG1200 can be configured for calibration and logging tasks in a convenient way through a mobile phone. During the pressure measurement, the value is displayed in the required unit directly on the mobile phone.

Moreover, further parameters like temperature and pressure change rate can be monitored. It is also possible to retrieve more detailed instrument

information directly from the WIKA website. In addition, the app allows configuration, control and saving of log procedures.

Logs that were saved on the mobile phone can be transferred to a PC and be read by WIKA-Cal. This enables them to be processed further and the app forms the final part of a complete solution for handling data from the CPG1200.

For connect to a PC and/or an Android or iOS-enabled device, Bluetooth® 5.2 Low Energy is recommended.

For iOS-based mobile phones, the app is available in the Apple Store under the link below.

For mobile phones with an Android operating system, the app is available in the Play Store under the link below.

WIKA-Cal calibration software

Easy and fast creation of a high-quality calibration certificate

WIKA-Cal calibration software serves for the creation of logger protocols or calibration certificates for pressure measuring instruments. The demo version is available for a cost-free download.

To switch from the demo version to a licenced version, a USB dongle with a valid licence must be purchased.

The preinstalled demo version changes automatically to the selected version when plugging in the USB dongle and remains available as long as the USB dongle is connected to the PC.

- The user is guided through the logger or calibration process
- Management of calibration data and instrument data
- Intelligent preselection via SQL database
- Menu languages: German, English, Italian, French, Dutch, Polish, Portuguese, Romanian, Spanish, Swedish, Russian, Greek, Japanese, Chinese More languages are due with software updates
- Customer-specific complete solutions possible
- Maximum degree of automation in connection with our CPG series

The supported instruments are continuously expanded and even customer-specific adaptations are possible.

For further information, see data sheet CT 95.10

Two WIKA-Cal licences are available together with a digital pressure gauge of the CPG series

The WIKA-Cal calibration software is available both for reading the logger data stored in the digital pressure gauge as well as for online calibrations together with a PC. The scope of software functions depends on the selected licence. Several licences can be combined on one USB dongle.

Cal-Template (demo version)	Log-Template (full version)

WIKA-DCS configuration software

As a supplement to the model CPG1200 and CPG1500 digital pressure gauges, in addition to the WIKA-Cal calibration software, the WIKA-DCS configuration software is also available.

With the help of the software, the instruments can be easily configured, either via the USB or Bluetooth® connection. The configuration includes, for example, setting the indication unit, displaying the temperature, min./max values and other menu settings.

The software also enables the configuration, control and storage of logger operations.

- Configuring the instrument
- Configuring logger sequences with the CPG1200/ CPG1500
- Carrying out logger sequences with the CPG1200/ CPG1500
- Downloading log files from the CPG1200/CPG1500
- Download the logger protocols as a CSV file
- Menu languages: German, English, French and Spanish

Haven't found the right process connection for your application?

Our diaphragm seals are the right solution

By using diaphragm seals, pressure measuring instruments can be adapted to even the harshest of process conditions. The diaphragm seal systems can be used for processes with gases, compressed air or vapour, with liquid, pasty, powdery and crystallising media and also with aggressive, adhesive, corrosive, highly viscous, environmentally hazardous or toxic media. A diaphragm separates the medium to be measured from the pressure measuring instrument. The internal space between the diaphragm and the pressure measuring instrument is completely filled with a pressure transmission medium. The pressure is transmitted to the measuring instrument via the pressure transmission medium.

There are a wide variety of different designs, process connections and material combinations available for customer-specific solutions. The accurate pressure measurement of all ranges from approx. 10 mbar up to 3,600 bar [0.145 ... 52,214.4 psi], even at extreme temperatures (range -130 ... +400 °C [-202 ... +752 °F]), is thus possible under extreme conditions.

The realisation of your individual solution

Create your perfect diaphragm seal solution together with us. From the wide variety of realisable combinations, our technology experts will find a proven solution for your application. As required, we will adapt our systems to your individual application.

Talk to us – we are happy to provide you with advice!

Complete measuring and test cases

The available test and service cases are individually equipped according to your needs.

There is a differentiation between 2 different variants.

For 3 x CPG1200 for storage and transport The plastic case is not permitted to be used in hazardous areas! Plastic case For 1 x digital pressure gauge, 1 x hydraulic hand test pump CPP700-H / CPP1000-H The plastic case is not permitted to be used in hazardous areas! For 1 x digital pressure gauge, 1 x CPP10-H or CPP30 pneumatic hand test pump -L- The plastic case is not permitted to be used in hazardous areas! Sealing set Consisting of: 4 x G ½ USIT seals 2 x G ¼ USIT seals Plastic box Ordering information for your enquiry:		For 1 x CPG1200 for storage and transport	-5-
For 1 x digital pressure gauge, 1 x hydraulic hand test pump CPP700-H / CPP1000-H The plastic case is not permitted to be used in hazardous areas! For 1 x digital pressure gauge, 1 x CPP10-H or CPP30 pneumatic hand test pump The plastic case is not permitted to be used in hazardous areas! Sealing set Consisting of: 4 x G ½ USIT seals 2 x G ¼ USIT seals Plastic box Ordering information for your enquiry:		For 3 x CPG1200 for storage and transport	-6-
The plastic case is not permitted to be used in hazardous areas! Sealing set Consisting of: 4 x G ½ USIT seals 2 x G ¼ USIT seals Plastic box Ordering information for your enquiry: 1. Order code: CPG-A-12		For 1 x digital pressure gauge, 1 x hydraulic hand test pump CPP700-H / CPP1000-H	-K-
Consisting of: 4 x G ½ USIT seals 2 x G ¼ USIT seals Plastic box Ordering information for your enquiry: 1. Order code: CPG-A-12			-L-
1. Order code: CPG-A-12 ↓	000	Consisting of: 4 x G ½ USIT seals 2 x G ¼ USIT seals Plastic box	-D-
	Ordering information	for your enquiry:	
op		1. Order code: CPG-A-12 2. Option:	[]

¹⁾ The figures are an example and may change depending on the state of the art in design, material composition and representation.

Description 1)		Order code
		СРК-ММ-
	Series 1620 adapter set in storage case Consisting of: 1 x direct connection G ½ female thread; P _{max} 400 bar [5,800 psi] 1 x direct connection ¼ NPT female thread; P _{max} 630 bar [9,130 psi] 1 x test coupling ISO 228-G ¼ male thread; P _{max} 630 bar [9,130 psi] 2 x test couplings ISO 228-G ⅓ male thread; P _{max} 400 bar [5,800 psi] 1 x test coupling ⅓ NPTF male thread; P _{max} 630 bar [9,130 psi] 1 x measuring hose (without check valve); P _{max} 630 bar [9,130 psi] 1 x measuring hose DN 2, length 0.5 m [1.6 ft]; P _{max} 630 bar [9,130 psi] → For further specifications, see data sheet AC 87.02	-1SZ-
	Series 1215 adapter set in storage case Consisting of: 1 x direct connection G ½ female thread; P _{max} 400 bar [5,800 psi] 1 x direct connection ¼ NPT female thread; P _{max} 630 bar [9,130 psi] 1 x test coupling ISO 228-G ¼ male thread; P _{max} 630 bar [9,130 psi] 2 x test couplings ISO 228-G ⅓ male thread; P _{max} 400 bar [5,800 psi] 1 x test coupling ⅓ NPTF male thread; P _{max} 630 bar [9,130 psi] 1 x measuring hose (without check valve); P _{max} 630 bar [9,130 psi] 1 x measuring hose DN 2, length 0.5 m [1.6 ft]; P _{max} 630 bar [9,130 psi] → For further specifications, see data sheet AC 87.02	-2SZ-
Ordering information for your enquiry:		
	1. Order code: CPK-MM 2. Option:	[]

¹⁾ The figures are an example and may change depending on the state of the art in design, material composition and representation.

Scope of delivery

- Digital pressure gauge model CPG1200
- 3 x 1.5 V AA alkaline batteries
- Operating instructions

Ordering information

CPG1200 / Explosion protection / Ignition protection type / Zone / Communication / Unit / Pressure type / Measuring range / Process connection / Accuracy / Type of certificate / Ambient temperature / Version for special media / Data logger / Protective case cap / Software / Communications accessories / Interface cable / USB power supply units / Additional accessories / Carrying case / Further approvals / Additional ordering information
