

8284 GAUGE TEST STATION

- **Low Cost**
- **Rugged design**
- **Easy operation**

The model 8284 is a robust station for testing pressure gauges. This standard has proven very practical in numerous test set-ups. Supplied with 1/2" - 3/8" - 1/4" - 1/8" BSP gauge adaptors which can be "stored" on the base plate of the Gauge Test Station.

A Tradinco Dirt Separator Model 2525 (not shown in the picture) can be fitted onto the Gauge Test Station to safeguard instruments against corrosion and dirt.
