

# Test couplings System MINIMESS<sup>®</sup> Model CPK-MM

WIKA data sheet AC 87.02

# Applications

- Calibration service companies and service industry
- Calibrations directly on-site
- Maintenance and service facilities
- Pressure test

## **Special features**

- Plug-in and threaded coupling
- Integrated non-return valve enables leak-free mounting and dismounting
- Tool-free fitting of the threaded connections

Fig. left: 1620 series Fig. right: 1215 series

# Description

#### Application areas

Both connection sets contain various test couplings for adapting to WIKA calibration products to existing processes with quick-release couplings series MINIMESS<sup>®</sup> 1620 or MINIMESS<sup>®</sup> 1215. The selection and quantity is specifically configured for the various WIKA calibration products.

#### Two connection sets for different systems

In practice, one often finds the test couplings 1620 series and 1215 of connections. The numbers represent the thread sizes of the test coupling connections: 1620 stands for the thread size M16 x 2 and 1215 for the thread size M12 x 1.5. For this reason, WIKA offers for each of the both systems one connection set.

#### Different adapter types

The components of both sets can be divided into 4 different categories.

- Test couplings have a series-specific male thread on one side and a BSP or NPT male thread on the other side. The coupling is also fitted with a non-return valve.
- Direct connections for measuring instruments have a series-specific female thread on one side with an internal metal mandrel. The metal mandrel serves to open the non-return valves of the test couplings.
- Hose adapters have a series-specific male thread on both sides. In contrast to the couplings, these have no non-return valve integrated and are particularly suitable for the connection of two hoses.
- Measuring hoses have a series-specific female thread on both sides.

MINIMESS® is a registered trademark of Hydrotechnik GmbH in various countries.

| Pressure utilisation <sup>3)</sup> | 0 °C [32 °F] ⇒ 122 %<br>30 °C [86 °F] ⇒ 110 %<br>50 °C [122 °F] ⇒ 100 %<br>80 °C [176 °F] ⇒ 86 %<br>100 °C [212 °F] ⇒ 77 %<br>120 °C [248 °F] ⇒ 68 % |

At reference conditions (20 °C - 3 K)
Perforated hose = jacket of hose is perforated for applications using gas
Calculation example: Measuring hose DN 2/630 bar at 30 °C pressure utilisation level: 630 bar x 1.10 = 693 bar Measuring hose DN 2/[9,130 psi] at [86 °F] pressure utilisation level: [9,130 psi x 1.10 = 10,043 psi]

# **Fields of application**

## Direct connection of a pressure measuring instrument

#### Requirements

- Pressure measuring instrument with a G ½ or ¼ NPT male thread
- Process connection with a G ¼, G ¼ or ¼ NPT female thread
- ⇒ Corresponding adapters are available in WIKA accessories.

| No.: | Description   |
|------|---|
| 1    | Direct connection for measuring instrument G ½ female thread      |
| 2    | Direct connection for measuring instrument<br>¼ NPT female thread |
| 3    | Test coupling<br>ISO 228-G ¼ male thread                          |
| 4    | Test coupling<br>ISO 228-G ½ male thread                          |
| 5    | Test coupling<br>¼ NPTF male thread                               |

### Connection of a pressure measuring instrument with measuring hose

#### Requirements

- Pressure measuring instrument with a G ½ or ¼ NPT male thread
- Process connection with a G ¼, G ¼ or ¼ NPT female thread
- ⇒ Corresponding adapters are available in WIKA accessories.

| No.: | Description  |
|------|--|
| 1    | Direct connection for measuring instrument G $\frac{1}{2}$ female thread |
| 2    | Direct connection for measuring instrument<br>1/4 NPT female thread      |
| 3    | Test coupling<br>ISO 228-G ¼ male thread                                 |
| 4    | Test coupling<br>ISO 228-G 1⁄8 male thread                               |
| 5    | Test coupling<br>¼ NPTF male thread                                      |
| 6    | Hose adapter<br>(without non-return valve)                               |
| 7    | Measuring hose DN 2, length 0.5 m [19.69 in]                             |

# Connection to a model CPH7000 process calibrator or models PASCAL ET, PASCAL 100 multi-function calibrator

#### Variant 1: Connection of a test item

#### **Requirements**

- Test item with a G ½ or ¼ NPT male thread.
- ⇒ Corresponding adapters are available in WIKA accessories.

| No.:                     | Description   |
|--------------------------|---|
| 1                        | Direct connection for measuring instrument G $^{\prime\!2}$ female thread                   |
| 2                        | Direct connection for measuring instrument<br><sup>1</sup> / <sub>4</sub> NPT female thread |
| 4                        | Test coupling<br>ISO 228-G ¼ male thread  |
| 6                        | Hose adapter<br>(without non-return valve)  |
| $\overline{\mathcal{O}}$ | Measuring hose DN 2, length 0.5 m [19.69 in]  |

#### Variant 2: Connection to a test valve or process connection

#### **Requirements**

- Process connection with a G ¼, G ¼ or ¼ NPT female thread
- ⇒ Corresponding adapters are available in WIKA accessories.

| No.: | Description                                  |
|------|--|
| 3    | Test coupling<br>ISO 228-G ¼ male thread     |
| 4    | Test coupling<br>ISO 228-G ¼ male thread     |
| 5    | Test coupling<br>¼ NPTF male thread          |
| 7    | Measuring hose DN 2, length 0.5 m [19.69 in] |

# Connection of a pressure controller, model CPC from Mensor

#### Requirements

- The pressure connection adapter 7/16" 20 F SAE male thread to G ½ female thread must be ordered separately.
- ⇒ Corresponding adapters are available in WIKA accessories.

#### Variant 1: Connection of a test item

| No.:                     | Description  |
|--------------------------|--|
| 1                        | Direct connection for measuring instrument G $\frac{1}{2}$ female thread |
| 2                        | Direct connection for measuring instrument 1/4 NPT female thread         |
| 4                        | Test coupling ISO 228-G 1/2 male thread                                  |
| 6                        | Hose adapter (without non-return valve)                                  |
| $\overline{\mathcal{O}}$ | Measuring hose DN 2, length 0.5 m [19.69 in]                             |

#### Variant 2: Connection of the pressure controller to a test valve or process connection

| No.: | Description                                  |
|------|--|
| 3    | Test coupling ISO 228-G 1/4 male thread      |
| 4    | Test coupling ISO 228-G 1/8 male thread      |
| 5    | Test coupling 1/4 NPTF male thread           |
| 7    | Measuring hose DN 2, length 0.5 m [19.69 in] |

# Connection to the pneumatic hand test pump, model CPP7-H

#### Requirements

- The T-connection adapter is a part of the scope of delivery of the CPP7-H
- If a measuring hose is connected to each G 1/8 female thread of the T-connection adapter, further components are necessary!

#### Variant 1: Connection of a test item

⇒ Corresponding adapters are available in WIKA accessories.

| No.:                     | Description  |
|--------------------------|--|
| 1                        | Direct connection for measuring instrument G 1/2 female thread   |
| 2                        | Direct connection for measuring instrument 1/4 NPT female thread |
| 4                        | Test coupling ISO 228-G 1/8 male thread                          |
| 6                        | Hose adapter (without non-return valve)                          |
| $\overline{\mathcal{O}}$ | Measuring hose DN 2, length 0.5 m [19.69 in]                     |

#### Variant 2: Connection of the model CPP7-H of the pneumatic hand test pump to a test valve or process connection

| No.: | Description                                  |
|------|--|
| 3    | Test coupling ISO 228-G 1/4 male thread      |
| 4    | Test coupling ISO 228-G 1/2 male thread      |
| 5    | Test coupling 1/4 NPTF male thread           |
| 7    | Measuring hose DN 2, length 0.5 m [19.69 in] |

# Connection to the pneumatic hand test pump, model CPP30

Variant 1: Connection of a test item

| No.:                     | Description  |
|--------------------------|--|
| 1                        | Direct connection for measuring instrument G 1/2 female thread   |
| 2                        | Direct connection for measuring instrument 1/4 NPT female thread |
| 4                        | Test coupling ISO 228-G 1/2 male thread                          |
| 6                        | Hose adapter (without non-return valve)                          |
| $\overline{\mathcal{O}}$ | Measuring hose DN 2, length 0.5 m [19.69 in]                     |

#### Variant 2: Connection of the model CPP30 of the pneumatic hand test pump to a test valve or process connection

| No.: | Description                                  |
|------|--|
| 3    | Test coupling ISO 228-G 1/4 male thread      |
| 4    | Test coupling ISO 228-G 1/8 male thread      |
| 5    | Test coupling 1/4 NPTF male thread           |
| 7    | Measuring hose DN 2, length 0.5 m [19.69 in] |

# Accessories

Depending upon which adapter set is used, the following parts are also available individually.

#### For 1620 series

| Description | Order number  |          |
|-------------|---|----------|
|             | Direct connection for measuring instrument G $\ensuremath{\sc v}_2$ female thread | 9072306  |
|             | Direct connection for measuring instrument 1/4 NPT female thread                  | 14340206 |
| APT)        | Test coupling ISO 228-G 1/4 male thread   | 9072284  |
|             | Test coupling ISO 228-G 1/8 male thread   | 14340208 |
|             | Test coupling 1/4 NPTF male thread  | 14340207 |
|             | Hose adapter (without non-return valve)   | 14340209 |
|             | Measuring hose DN 2, length 0.5 m [19.69 in]                                      | 14340220 |
|             | Measuring hose DN 2, length 1 m [39.37 in]  | 11403306 |
|             | Measuring hose DN 2, length 2 m [78.74 in]  | 14349940 |

#### For 1215 series

| Description | Order number  |          |
|-------------|---|----------|
|             | Direct connection for measuring instrument G $\ensuremath{\mathscr{V}}_2$ female thread | 14340210 |
|             | Direct connection for measuring instrument 1/4 NPT female thread                        | 14340215 |
|             | Test coupling ISO 228-G 1/4 male thread   | 14340211 |
|             | Test coupling ISO 228-G 1/2 male thread   | 14340218 |
|             | Test coupling 1/4 NPTF male thread  | 14340217 |
|             | Hose adapter (without non-return valve)   | 14340219 |
|             | Measuring hose DN 2, length 0.5 m [19.69 in]  | 14340222 |
|             | Measuring hose DN 2, length 1 m [39.37 in]  | 14349976 |
|             | Measuring hose DN 2, length 2 m [78.74 in]  | 14349986 |

Other connection adapters are available on request.

# Scope of delivery

| Description |  | Order code |
|-------------|--|------------|
|             |  | СРК-ММ-    |
|             | <b>1620 series adapter set in storage case</b><br>Consisting of:<br>1x Direct connection G ½ female thread; P <sub>max</sub> 400 bar [5,800 psi]<br>1x Direct connection ¼ NPT female thread; P <sub>max</sub> 630 bar [9,130 psi]<br>1x Test coupling ISO 228-G ¼ male thread; P <sub>max</sub> 630 bar [9,130 psi]<br>2x Test coupling ISO 228-G ½ male thread; P <sub>max</sub> 400 bar [5,800 psi]<br>1x Coupling ¼ NPTF male thread; P <sub>max</sub> 630 bar [9,130 psi]<br>1x Hose adapter (without non-return valve); P <sub>max</sub> 630 bar [9,130 psi]<br>1x Measuring hose DN 2, length 0.5 m [19.69 in]; P <sub>max</sub> 630 bar [9,130 psi]      | -1SZ-      |
